INTRODUCTION

The Institute for Advanced Study of Human Sexuality is committed to the development of sexology. Sexology is the scholarly study of sexual behavior in all of its aspects. By definition, a sexologist is a person with expert knowledge in sexual science who devotes him/herself to its objective observations which are logically consistent.

Although attempts at a rational and systematic investigation of sex have a long history dating back at least to the ancient Greeks, sexology in the modern, specific sense is usually said to be about one hundred years old. It grew out of 19th century historical, sociological economic, anthropological, and especially medical research (Kaan, Westphal, Mantegazza, Krafft-Ebbing, Schrenck-Notzing, Havelock Ellis), but was developed and formally established in our century by Iwan Bloch as a distinct new science under the name Sexualwissenschaft (i.e., sexual science or sexology).

During the 1st part of the 20th Century, sexological studies were generally placed in the area of finding cures for pathological situations, matters of enforcement of conduct through legal and theological controls, and endless political turf wars between political and theological belief systems claiming to have the right to control other persons lives. But in the middle of the century, Alfred Kinsey and his associates, along with the humanistic psychology movement changed the focus to the study of what people did sexually and how they felt about what they did sexually. By the last of the 20th century, the Information Age said loudly and clearly that people wanted to know about sex and that what was lacking were skills and reasons for management of sexuality. In other words the focus became of the meaning and pleasures of sexuality. Now there was a need for experts and resource centers for the training of experts. Departments of Sexology were developed in a number of Universities and the first graduate school granting legal degrees was established in San Francisco as The Institute for Advanced Study of Human Sexuality.

THE INSTITUTE

The Institute for Advanced Study of Human Sexuality offers five graduate degree programs for persons wishing professional training in sexology. These programs are designed specifically for persons who intend to make the field of sexology and erotology a major focus in their professional careers.

Under the Institute's programs it is possible for students to continue their professional education without leaving their present employment. Reading, watching video courses, writing papers and similar work required during the trimester may be done in private study at home. Because sexology has emerged as a separate academic and professional field in this country only in the last fifty years, students admitted to the Institute will bring with them backgrounds widely different in experience and training. This requires that the process of acceptance into the program and the evaluation of work already completed be as comprehensive as possible. It is not the wish of the Institute for persons to duplicate work already completed. Therefore, the Institute will give a limited amount of credit for previous academic work and professional experience in the field of sexology.

The Institute restricts its programs to the field of sexology and erotology.

STUDENTS

The Institute's students come from all over the world, creating a multilingual, multicultural mix which in itself is a learning experience. Most students already have graduate training when they enter the Institute, and many are involved professionally in the field of sexology or related helping professions. Current students include teachers, ministers, writers, physicians, social workers, nurses, psychologists, actors, film producers, retailers, and others. They range in age from the early twenties to the mid-sixties. As in many other emerging fields of study, 70 percent of our students are women.

Graduates of the Institute are located throughout the world. They are teachers in high schools, colleges and medical schools. Many are in private practice as therapists, while others combine therapy with teaching and workshops. Some graduates have continued in their previous professions, as clergy, social workers, researchers, psychiatrists and physicians, but now do specialized work in sexology. Some have found a place in the commercial world as writers, filmmakers and in the media.

MENTORS

We found all students need help in understanding the vast amount of information and resources at the Institute. The Institute recommends that every student take advantage of the mentor program so that they will have a friend in sexology to help them understand sex education networking, where to find advice, help and new technological services to students. We encourage all students to talk to their assigned mentors and to faculty. If you do not have a mentor, Dr. Marilyn Lawrence, Dean of Students, will recommend one.

INSTITUTE FACULTY

The Registrar's office maintains all the student records; the Student Services Director handles the distribution of course materials; the Media Director is in charge of media services; the Comptroller maintains all financial records and financial planning.

LIBRARY

The Institute's Library System is made up of 7 major libraries, 10 specialty libraries and numerous collections. The major libraries are The Lyle Stuart Sex Science Library, the Harry Mohny Arts and Sciences Library, the Clark Taylor Memorial Library, the Wardell B. Pomeroy Lecture Library, the Fithian Library, the Aphrodite Erotic Art Library, and the Erotological Library of Fine Art and Literature.

There are many specialty libraries and collections consisting of the:

- Laird Sutton Film Production Library
- The Great DeRenzy Photography and Film Library
- Jack Spund Library of Hollywood Memorabilia
- David C. Whitney collection
- Tim Connelly Sex Industry Library
- William Meagher Collection
- Dr. Richard L. Bennett, Dr. Thomas Erwin Gertz & Akron Forum Collection
- Alternative Lifestyle Library made up of many smaller collections
- Aphrodite Collection
- Ralph Whittington Collection

HISTORY OF THE INSTITUTE

The Institute for Advanced Study of Human Sexuality was formally incorporated as a private nonsectarian graduate school on June 8, 1976. On August 13, 1976, the State of California qualified the Institute to grant graduate degrees in the field of human sexuality. The first class of students began work on October 1, 1976. About one year later, following evaluation by a committee on postsecondary educational standards appointed by the State of California, the Institute received approval of the following degrees by the Superintendent of Public Instruction of the California State Department of Education under California Education Code Section 94310(b): Master of Human Sexuality (M.H.S.), Doctor of Arts in Human Sexuality (D.A.), Doctor of Human Sexuality (D.H.S.) and Doctor of Philosophy (Ph.D.). In June 1981, after an on-site visit, the degrees were reapproved, and the Doctor of Arts degree was changed to a Doctor of Education in Human Sexuality (Ed.D.) degree. In 2002, the Institute received approval for the Master of Public Health in Human Sexuality (M.P.H.) degree.

In June 1982, The Institute was granted full accreditation status by the National Association of Private Nontraditional Schools and Colleges (NAPNSC). In 1987, the Institute was granted full institutional approval by the State of California.

For an understanding of the Institute, it is important to look at its early beginnings and development.

In 1962, the United Methodist Church, in cooperation with the United Church of Christ, the United Presbyterian Church, the American Baptist Church and the Southern Presbyterian Church, commissioned a study of the nature and needs of persons in early adulthood. Four cities were chosen to field the study, and The Rev. Ted McIlvenna, a United Methodist minister with considerable social research background, was chosen to direct the San Francisco arm of the project. The issue of sexual identity, especially homosexuality, was a primary area of the project's research. The main conclusion of the findings was that one cannot understand homosexuality without understanding human sexuality. Further consultations were held at the Institute for Sex Research in Bloomington, Indiana; at the headquarters of the United Methodist Church in Nashville, Tennessee; at the National Institutes of Mental Health in Washington, D.C.; and in London, England, with representatives from the Dutch Ministry of Culture, World Council of Churches, the British Department of Health, a representative from the Vatican, a Bishop of the Church of England, a representative of the French Ministry of Health and five delegates from the United States. At the London meeting, it was decided that persons in the helping professions were woefully lacking in knowledge about human sexuality and that a center specifically designed for training professionals should be initiated.

In the spring of 1967, a meeting was held at the Institute for Sex Research in Bloomington, which included representatives from the original sponsoring church bodies, the National Institutes of Mental Health, the Glide Foundation (an operating foundation) and four other funding foundations. It was concluded that the Glide Foundation in San Francisco would be the home of the National Sex Forum (NSF). The Forum would have as its main tasks the study of what helping professionals needed to know about human sexuality and the development of effective educational methodologies and design of innovative training materials. The National Sex Forum began officially in October 1968, as part of the Glide Urban Center.

By the end of the first year, it was obvious that most professionals needed specific training in human sexuality, that there was a lack of educational material and that the available information had not been organized in any specific way. In October 1969, a team of twelve persons committed themselves to the formal study of sexology. Each of these persons brought to this study a unique background and each chose a specialty in addition to general sexological study. This group consisted of two clergy, three physicians, three therapists, one child psychologist and three sex educators. Of this group, nine persons finished their committed study by 1974, and six of these nine became the core faculty of the Institute. In 1975, the political and economic pressures of the church relationship became so severe that NSF sponsorship was transferred to the Exodus Trust, a California non-profit trust which has as its sole and exclusive purpose to perform educational, scientific and literary functions relating to sexual, emotional, mental and physical health.

The Forum is perhaps best known for developing the Sexual Attitude Restructuring (SAR) Process, a revolutionary method for educating adults about what people do sexually and how they feel about it. Although the SAR Process has been misunderstood and misused by untrained imitators, it has proven very effective when used by competent sexologists. The Forum also is the largest supplier of professional educational material dealing specifically with human sexual behavior. These films, slides, audio tapes and videos are used by more than 8,000 professionals and institutions throughout the world.

It is important to mention that during the years from 1969 to 1973, the National Sex Forum and the sexological study team worked closely with the University of Minnesota Medical School Program in Human Sexuality, directed by Richard Chilgren, M.D., and the University of California Medical School Program in Human Sexuality, directed by Herbert Vandervoort, M.D. By the beginning of 1974, it became obvious to the NSF staff and the sexological study team that there needed to be an interdisciplinary institute for the education and training of sexologists. In order to ensure academic freedom, it was imperative that the proposed institute be free-standing and not under the control of an outside board of directors.

Four tasks were assigned to the sexological study team. Ted McIlvenna was assigned the task of moving the National Sex Forum and the "future" Institute into a new structure. Herb Vandervoort was given the task of the academic organization of work completed by the sexological study team. Laird Sutton was assigned to build the graphic resource library, and Marguerite Rubenstein, Loretta Haroian and Phyllis Lyon accepted the challenge of defining the professional training requirements in the emerging field of sexology. All of these tasks were completed and became the foundation upon which the Institute was built. The planning group then identified the steps of the second phase: a facility, which was acquired; a library, which was developed; and a faculty, which was expanded to include the dean of American sexologists, Wardell B. Pomeroy, Ph.D., and a leading sexological historian, Erwin Haeberle, Ph.D., as resident faculty. In addition, the Rev. Lewis E. Durham, former head of the Glide Foundation and expert on alternate lifestyles, became the Dean of Students. The Institute also contracted for the part-time services of other leading experts.

The gathering of expertise in dispersion was the final task of the second phase. Three times each year, the Institute invites ten experts who have contributed to the emerging field of sexology. These experts are asked to lecture and document on video their contribution. These lectures are now the best oral history of contemporary sexology available. In addition, another 8,000 hours of materials have been gathered to supplement the basic core curriculum. The last developmental task was to seek out and find the structure and a board that could actively support and protect the objectives of the Institute. The structure that was created had to withstand the changes of the political climate and maintain absolute academic freedom and independence.

The Institute is now over 40 years old. More than 350 persons have received certificates or degrees from the Institute and more than 3000 people have come to the Institute to attend classes or use what is now the largest library of sexological and erotological literature. For these 40 years, the Institute has been under the approval system of the Office of Education of the State of California and now under the Bureau for Private Postsecondary Education. Two years ago, the California legislature voted to require private schools be accredited by private, outside accrediting bodies approved by the U.S. Office of Education in Washington, DC. There are no accrediting bodies for sexology, so the Institute has had to seek out and find an appropriate accrediting body that was willing to look at the Institute, who it was, where it came from, where it was going and to move the Institute towards accreditation. The Institute first tried a local accrediting body that demanded the Institute be something that it was not and could not be for legal and ethical reasons and so the Institute sought out the Accreditation for Career and Occupational Schools, a new and aggressive accrediting professional group from Texas. A visitation examination ended in the candidacy for accreditation and the expectation of full accreditation within the near future. The visiting team recognized that the Institute has always been owned by a non-profit religious trust that has its sole and exclusive purpose to perform educational, scientific and literary functions relating to sexual, emotional, mental and physical health. The trustees of this non-profit trust have been the McIlvenna family and along with many fellow travelers and helpers have made the Institute possible.

The future is to find new ways for the survival of the Institute and its dedication to make sexological and erotological knowledge and materials available throughout the world through new technological means and cooperation with other people throughout the world who are dedicated to the future of sexual health and a commitment to make sexual rights as human rights.

THE MISSION OF THE INSTITUTE

The mission of the Institute for Advanced Study of Human Sexuality is to provide a graduate course of study for those persons considering and preparing for careers in human sexuality or already working in the field and in so doing, to make a significant contribution to the quality of professional work in the field. The mission requires the maintenance of archives, resource centers and research facilities dealing with primary sexological and erotological material not available elsewhere and a commitment to the highest scientific, academic and ethical standards by administrators, faculty and students.

PURPOSES AND GOALS

1. The Institute is dedicated to a determined and objective evaluation of its various functions by inside and outside evaluations.
2. The Institute is dedicated to the recruitment and screening of serious and capable persons who have expertise to share or the desire to learn about academic sexology.
3. The Institute is dedicated to provide a graduate course of study leading to two masters and three doctoral degrees in human sexuality that are on the same or higher level of graduate degrees in other fields.
4. The Institute is dedicated to provide students with a full range of research methodologies and skills so that they are prepared to work in their own field as well as work with other persons in allied fields who are working in sexological problem solving.
5. The Institute is dedicated to help students learn the how, why and where sexology impacts on the sexological and the nonsexological aspects of people's lives in their own and other cultures.
6. The Institute is dedicated to help students learn the how, why and where

- sexology impacts in the fields of history, law, anthropology, sociology, education, psychology, art and the various erotological expressions in the marketplace.
7. The Institute is dedicated to serve a worldwide community of school researchers, students, politicians, and artists by providing a center of expertise which will help them develop the several skills and strategy needed in the struggle to alleviate sexual ignorance, mindless sexual intolerance, sexual intolerance religiously or politically reinforced, political and academic hypocrisy and the remedial sexological expertise that will lead to intellectual honesty and human dignity.
 8. The Institute is dedicated to provide the opportunity for all degree students to participate in a thirty-year Basic Research Project which provides the basic behavioral information about what people are doing sexually but also provides an opportunity for each Institute student to become the leading expert on the sex profiles of an affinity group of people and helps the student learn those research skills that they will need in preparing their graduate thesis, project or dissertation. This participation continues to be a primary cause of continued dedication to learning and research in the field for those who have participated.
 9. The Institute is dedicated to provide each student an opportunity to build a portfolio-file that can be constantly evaluated by the faculty and the student. All work done in the field of human sexuality by a student must be kept in their file and duly evaluated by a faculty member including all seminars, workshops, reading, viewing, writing, teaching, participating and creating. In addition, students are required to provide book reports, annotated bibliographies, reports of lectures on video, reports on viewed media, practicum reports, a basic research project, reports on all Pomeroy Lecture Series, and finally two comprehensive exams (one written and one oral) before admittance to the dissertation or project phase of their study. In addition, there must be approval of a project or dissertation proposal and defense of those requirements including unanimous approval of all committee members. Clinical track persons must have a separate battery of tests to show that they have clinical knowledge and skills.
 10. The Institute is dedicated to provide students the opportunity to learn about and use the latest basic informational management technologies. From the stance of expertise and not simply advocacy, students are provided the frameworks and methods to evaluate the political, cultural and economic determinism related to sexual issues that are used by special interest groups to control and manipulate people for other than humanistic reasons. By having primary material and historical and current editorial comment, the actual struggle between free expression and social responsibility can be seen.
 11. The Institute is dedicated to the furtherance of sexual health for all people. Sexual health care has always been available for the rich, the famous, the heroes of entertainment and the powerful in most societies and strategies must be examined that provide sexual health care benefits which include preventive, therapeutic and rehabilitative services. Since sexology is a small field it is obvious that much primary care and service must be provided through allied health care providers and institutions

and so students must learn the strategies of sharing the mission of the Institute with others.

12. The Institute is dedicated to the belief that sexual rights are basic human rights and it is appropriate to help students understand that many people have been hurt, falsely imprisoned, harassed and persecuted because of laws and misinformation about the role and place of sexuality and its many expressions by individuals in our society. The sexual artifacts created in the last two hundred years are mostly gone or hidden. Not a single university library in the United States has an acceptable erotology library for scholarly research except the Institute. Helping the criminal justice system to be more humane and responsible and at the same time providing the understanding and skill necessary to bring about restoration, reconciliation and sexual health for victims and offenders is part of specialized sexological education.

GENERAL OBJECTIVES

To provide a faculty of persons who are both academically trained and professionally competent in the field of human sexuality.

- To provide the means whereby people working in the area of human sexuality may receive additional academic and professional training and recognition for quality work and where they, as students in the field, may assist each other in increasing their competence and effectiveness.
- To provide suitable resource materials consisting of a large library of films, slides, audio tapes and videos; a research and basic source library of books, publications and original research; and physical facilities for counseling, classroom work, and media development and viewing.
- To provide courses, seminars, supervised practica in counseling and educational methods, supervised research, guided study, training in media development and use.
- To provide academic guidance to projects and dissertations of candidates that will make contributions to the understanding of human sexuality.
- To create materials.
- To create and evaluate new educational methodologies.
- To develop and maintain access to institutions, networks, and individuals.
- To integrate information systems with allied professions and, from a centralized sexological standpoint, gather the data on sex, which are spread through the fields of history, art, literature philosophy, the social sciences, religion, law and law enforcement, medicine, and through the quantity of materials in the contemporary marketplace served by modern media and technology.
- To create an archive of historical and contemporary sexological material and to sort, catalog and preserve it for the future.
- Through video and audio recording, to record: 1. The history of our own Institute. 2. The contemporary history of our field. These recordings include formal, scientific presentations and autobiographical and anecdotal material by important contributors to sexology.
- To create an environment for the objective study of human sexuality— independent of outside interference. To provide protection to people and materials in the field of sexology.

The Exodus Trust is a non-profit California Trust that has as its sole and exclusive purpose to perform educational, scientific and literary functions relating to sexual, emotional, mental and physical health. The Exodus Trust owns 100% of the stock of the Institute and guarantees protection against outside interference. Like all graduate institutions, subsidy is needed to assure a high quality of education. Two funds have been set up to receive charitable contributions. These funds are: The Exodus Trust General Support Fund, and The Scholarship Fund.

BASIC SEXUAL RIGHTS

The ethical guidelines for the Institute are based on the belief that sexual rights are human rights.

1. The freedom of any sexual thought, fantasy or desire.
2. The right to sexual entertainment, freely

available in the marketplace, including sexually explicit materials dealing with the full range of sexual behavior.

3. The right not to be exposed to sexual material or behavior.
4. The right to sexual self-determination.
5. The right to seek out and engage in consensual sexual activity.
6. The right to engage in sexual acts or activities of any kind whatsoever, providing they do not involve non-consensual acts, violence, constraint, coercion or fraud.
7. The right to be free of persecution, condemnation, discrimination, or societal intervention in private sexual behavior.
8. The recognition by society that every person, partnered or unpartnered, has the right to the

pursuit of a satisfying consensual sociosexual life free from political, legal or religious interference and that there need to be mechanisms in society where the opportunities of sociosexual activities are available to the following: disabled persons; chronically ill persons; those incarcerated in prisons, hospitals or institutions; those disadvantaged because of age, lack of physical attractiveness, or lack of social skills; the poor and the lonely.

9. The basic right of all persons who are sexually dysfunctional to have available nonjudgmental sexual health care.
10. The right to control conception.

PROFESSIONAL AND ACADEMIC DEGREES

THE PROFESSIONAL DEGREES

The Institute offers three professional degrees for sexological professionals.

MASTER OF HUMAN SEXUALITY AND SEXOLOGICAL SOCIAL CONCERNS

The Master of Human Sexuality degree is especially designed for persons who have not previously had an opportunity to pursue graduate level studies. It is a step toward professional qualification in the field of human sexuality and may be sufficient in many situations, such as teaching about human sexuality in public schools. The Master's degree requires academic proficiency and demonstrable professional skills.

The requirements for this degree are:

1. Completion of a Bachelors Degree or the equivalent from an accredited or approved college or university.
2. Acceptance by the Admissions Committee after evidence is shown that the student is capable of work on the graduate level.
3. Completion of three trimesters of acceptable graduate study including preparation and completion of a Master's thesis or project (51 units including thesis/project).
4. Passing a written Comprehensive Examination.
5. Satisfactory completion of a Master's thesis or project.

The Master's Program Requires the following course work:

1. Successful Completion of the following courses:
 - a. **4 Units of Practical General Education Courses**
 - i. 101 Introductory Course in Human Sexuality.....2 Units
 - ii. 561 Practical Skills Workshop.....2 Units
2. Successful Completion of the following General Education Programs:
 - a. Associate in Sex Education.....8 Units
 - b. Clinical Sexology Certificate8 Units
 - c. Erotology Certificate.....12 Units
3. **2 Basic Lecture Series** (1 Each trimester).....4 Units
4. **Written Comprehensive Examination** after the above requirements are completed.
 - a. 20% of Examination Grade: Every student in the program must submit 30 questions to faculty that they believe cover the field of Human Sexuality. Of those 30 questions, faculty will select 10 questions and distribute them to the students.
 - b. 80% of Examination Grade: Successfully answering the 10 questions.
5. **Completion of Basic Research Project**.....5 Units
 - a. Required for all doctoral students, the project consists of obtaining a sample of at least 100 persons in a homogenous group, i.e., alcoholics, S/M, elders, members of an organization, etc., to fill out the Institute Sex Profile. Data from the profiles must be analyzed in comparison with similar data, and presented and accepted before Comprehensive Examinations are taken. 5 units credit upon completion. Specific details can be found in the Student Handbook.
6. Satisfactory completion of a **Master's thesis or project**.....8 Units
 - a. To be acceptable, the thesis or project must:
 - i. Provide a thorough scholarly or scientific treatment of a limited topic or area of sex research, sex education or sex therapy. This treatment does not necessarily have to yield

new insights, or new theories, or make any other original contribution to professional knowledge but it must be comprehensive within the limits chosen.

- ii. Demonstrate the mastery of at least one scientific, scholarly or educational method or mode of presentation.
- iii. Demonstrate a familiarity with existing pertinent theory and research in the field.
- iv. Present the research findings clearly, systematically, in good English and in such a way that they can be examined for their validity by other researchers.

As a rule, Master's theses follow the standard style as set forth by Kate Turabian's Manual of Style (University of Chicago Press) or the APA Publication Manual. The written parts of a Master's project usually also follow this format, unless special considerations make this inadvisable

MASTER OF PUBLIC HEALTH IN HUMAN SEXUALITY

The Master of Public Health is designed for persons in the helping profession who wish to add sexological expertise to their existing skill base.

The requirements for this degree are:

1. Completion of a Bachelors Degree or the equivalent.
2. Acceptance by the Admissions Committee after evidence is shown that the student is capable of work on the graduate level.
3. Completion of two trimesters of acceptable graduate study including preparation and completion of a Master's thesis or project (50 units including thesis/project).
4. Passing a written Comprehensive Examination.
5. Satisfactory completion of a Master's thesis or project

The Master's Program requires the following course work:

1. Successful Completion of the following courses:
 - a. **2 Units of Practical General Education Courses**
 - i. 101 Introductory Course in Human Sexuality.....2 Units
2. Successful Completion of the following **General Education Programs**: Total of 18 Units
 - a. Associate in Sex Education.....8 Units
 - b. Clinical Sexology Certificate8 Units
 - c. Erotology Certificate..... 12 Units
3. **Completion of courses in Public Administration and Epidemiology**1 Unit each.
4. **2 Basic Lecture Series**4 Units
5. **Book Report Credits**.....4 Units each
 - a. **Required book reviews**, two of the following:
 - i. Appleton and Lange's Review of Epidemiology and Biostatistics for the USMLE by Edward Hanrahan, Gangadhar Madupu, Gangadhar Madupu
 - ii. Strategic Planning for Public and Nonprofit Organizations: A Guide to Strengthening and Sustaining Organizational Achievement by John Bryson
 - iii. The Wages of Sin: Sex and Disease, Past and Present by Peter Lewis Allen
 - iv. Health Dimensions of Sex Reproduction: The Global Burden of Sexually Transmitted Diseases HIV Maternal Conditions Perinatal Disorders and Congenital Anomalies by Christopher J.L. Murray and Alan D. Lopez, Editors
 - v. Not in Front of the Children by Marjorie Heins
6. Written **Comprehensive Examination** after the above requirements are completed.

- a. 20% of Examination Grade: Every student in the program must submit 30 questions to faculty that they believe cover the field of Human Sexuality. Of those 30 questions, faculty will select 10 questions and distribute them to the student.
- b. 80% of Examination Grade: Successfully answering the 10 questions.
7. Completion of **Basic Research Project**5 Units
- a. Required for all doctoral students, the project consists of obtaining a sample of at least 100 persons in a homogenous group, i.e., alcoholics, S/M, elders, members of an organization, etc., to fill out the Institute Sex Profile. Data from the profiles must be analyzed in comparison with similar data, and presented and accepted before Comprehensive Examinations are taken. 5 units credit upon completion. Specific details can be found in the Student Handbook.
8. Satisfactory completion of a **Master's thesis or project**.....8 Units
- a. To be acceptable, the thesis or project must:
- i. Provide a thorough scholarly or scientific treatment of a limited topic or area of sex research, sex education or sex therapy. This treatment does not necessarily have to yield new insights, or new theories, or make any other original contribution to professional knowledge but it must be comprehensive within the limits chosen.
 - ii. Demonstrate the mastery of at least one scientific, scholarly or educational method or mode of presentation.
 - iii. Demonstrate a familiarity with existing pertinent theory and research in the field.
 - iv. Present the research findings clearly, systematically, in good English and in such a way that they can be examined for their validity by other researchers.

As a rule, Master's theses follow the standard style as set forth by Kate Turabian's Manual of Style (University of Chicago Press) or the APA Publication Manual. The written parts of a Master's project usually also follow this format, unless special considerations make this inadvisable.

DOCTOR OF HUMAN SEXUALITY

The Doctor of Human Sexuality is a degree requiring a background in therapy or counseling, or an allied sexological, erotological or health field as a prerequisite to admission.

Candidates for this degree must meet the following requirements:

1. Completion of a Bachelors Degree or the equivalent.
2. Acceptance by the Admissions Committee after evidence is shown that the student is capable of doctoral-level professional work in human sexuality.
3. Completion of 9 trimesters of acceptable graduate work. A maximum of 3 trimester credits may be given for previous graduate work or professional work in the field of Sexology. (93 Units of Required Course Work and 27 Units of Elective Course Work)
4. Completion of a Basic Research Project.
5. Passing the Comprehensive Examination.

Three Basic Lecture Series.....2 Units each

4 Book Report Credits.....4 Units each
(Book reports and annotated bibliographies must be in before 20 units of credit is given)

Required book reports, four of the following:

The Sex Researchers

Sexual Behavior in the Human Male Sexual Behavior in the Human Female

Treatment of Sexual Dysfunction

What Wild Ecstasy: The Rise and Fall of the Sexual Revolution

36 annotated bibliographies or lectures (4/1)**Practica Courses** (Credit is not given until reports are turned in)

101 Orientation to Sexology.....	2 Units
561 Practical Skills Workshop.....	2 Units

Basic Research Project.....20 Units

Certificates

Associate in Sex Education.....	8 Units
Clinical Sexology Certificate.....	8 Units
Erotology Certificate.....	12 Units

THE ACADEMIC DEGREES

The Institute offers two academic degrees for sexological professionals who choose teaching or research as their main focus. Only persons who have completed one of the Institute's professional degrees or completed three professional certificates will be advanced into the academic degree candidacy.

DOCTOR OF EDUCATION IN EROTOLOGY

The Doctor of Education offers a broad background in the field of human sexuality for those who wish to become educators and/or generalists in the field. The Ed.D. has particular relevance for those who may teach courses, design educational training programs for special populations, or utilize writing, filmmaking or other communication media as their form of service in human sexuality. It is a degree requiring both academic and professional skills.

The requirements are:

1. Completion of a Bachelors Degree or the equivalent.
2. Acceptance by the Admissions Committee after evidence is shown that the student is capable of mature scholarship and creativity.
3. Completion of four trimesters of acceptable graduate study including one trimester for the preparation of a doctoral project. A maximum of one trimester credit may be given for previous graduate work.
4. Completion of a Basic Research Project.
5. Admission into degree candidacy after passing the written and oral Comprehensive Examination.

Three Basic Lecture Series.....2 Units Each

Five Book Report Credits.....4 Units Each

(Book reports and annotated bibliographies must be in before 25 units of credit is given)

Required book reviews, five of the following:

The Sex Researchers

Sexual Behavior in the Human Male

Sexual Behavior in the Human Female

What Wild Ecstas : The Rise and Fall of the Sexual Revolution

Treatment of Sexual Dysfunction

36 annotated bibliographies or lectures (4/1)

Practica Courses (Credit is not given until reports are turned in)

101 Orientation to Sexology.....2 Units

561 Practical Skills Workshop.....2 Units

Basic Research Project20 Units

Certificates

Associate in Sex Education.....8 Units

Clinical Sexology Certificate.....8 Units

Erotology Certificate.....12 Units

Doctor of Education in Human Sexuality Project.....12 Units

As a rule, doctoral theses follow the standard style as set forth by Kate Turabian's Manual of

Style (University of Chicago Press) or the APA Publication Manual. The written parts of a Doctor of Education project usually also follow this format, unless special considerations make this inadvisable.

DOCTOR OF PHILOSOPHY IN SEXOLOGY AND EROTOLOGY SOCIAL PRINCIPLES

This degree follows the tradition of stressing new knowledge and scientific inquiry. The requirements are:

1. Completion of a Bachelors Degree or the equivalent from an accredited or approved college or university.
2. Acceptance by the Admissions Committee after evidence is shown that the student is capable of mature scholarship and creativity.
3. Completion of nine trimesters of acceptable graduate study including one trimester for the preparation of a doctoral project (120 Units Total, 106 Required Courses and 14 Courses Elective). A maximum of one trimester credit may be given for previous graduate work.
4. Completion of a Basic Research Project.
5. Admission into degree candidacy after passing the written and oral Comprehensive Examination.
6. Presentation of a dissertation demonstrating analytical treatment, original and independent investigation of a subject in the field of sexology.

Five Basic Lecture Series2 Units Each

Five Book Report Credits4 Units Each
(Book reports and annotated bibliographies must be in before 25 units of credit is given)

Required book reviews, five of the following:

The Sex Researchers

Sexual Behavior in the Human Male

Sexual Behavior in the Human Female

What Wild Ecstasy: The Rise and Fall of the Sexual Revolution

Treatment of Sexual Dysfunction

36 annotated bibliographies or lectures (4/1)

Practica Courses (Credit is not given until reports are turned in)

101 Orientation to Sexology.....2 Units

561 Practical Skills Workshop.....2 Units

Basic Research Project.....20 Units

Certificates

Associate in Sex Education.....8 Units

Clinical Sexology Certificate.....8 Units

Erotology Certificate.....12 Units

Comprehensive Examination

- a. 20% of Examination Grade: Every student in the program must submit 30 questions to faculty that they believe cover the field of Human Sexuality. Of those 30 questions, faculty will select 10 questions and distribute them to the students.
- b. 80% of Examination Grade: Successfully answering the 10 questions

Doctor of Philosophy in Human Sexuality Dissertation.....12 Units

As a rule, doctoral dissertations follow the standard style as set forth by Kate Turabian's Manual of Style (University of Chicago Press) or the APA Publication Manual. The written parts of a doctoral dissertation usually also follow this format, unless special considerations make this inadvisable.

CERTIFICATES

Students must apply to and be accepted by the Institute to take most certificate courses.

ASSOCIATE IN SEX EDUCATION CERTIFICATE

This certificate prepares professionals to answer sexual questions and provide relevant sex education to their respective clientele. The required 150 hours of credit will focus on sex education media, the history of sexology, and developmental sexology throughout the life span. It will include courses on DVD and textbooks which the student will keep for further use, and a comprehensive work book of monographs, the SAR Guide for a Better Sex Life, personal exercises, and self-testing forms. Tuition is \$4,150.00, plus a \$100.00 application fee. STUDENTS RECEIVE ALL PRINTED MATERIALS AND DVDS AT THE TIME OF ENROLLMENT, THEREFORE THERE WILL BE NO REFUNDS ISSUED.

CLINICAL SEXOLOGY CERTIFICATE

This certificate is awarded upon completion of the Associate in Sex Education and 150 additional hours of study in the following program areas: socio-cultural implications of sexology; sexual anatomy and physiology; health perspectives; sexual dysfunctions; legal/ethical issues; erotology. Attendance at a one-week Wardell B. Pomeroy Basic Lecture Series or an eight-day Sexual Attitude Restructuring (SAR) program in June or two weekend courses at the Institute is a requirement. All texts and DVDs will be retained by the student. Tuition is \$4,150.00 or \$7,875.00, plus a \$100.00 application fee for preregistration in both courses. STUDENTS RECEIVE ALL PRINTED MATERIALS AND DVDS AT THE TIME OF ENROLLMENT, THEREFORE THERE WILL BE NO REFUNDS ISSUED.

If the Associate in Sex Education and Clinical Sexology certificates are paid for separately, the entire Clinical Sexology Certificate will cost \$425.00 more.

SEXOLOGICAL INSTRUCTOR/ADVISOR OF AIDS/STI PREVENTION CERTIFICATE

The purpose of this State approved certificate is to upgrade the skills of those working in AIDS or other STI prevention programs who presently lack advanced formal training in sexology and to prepare those planning to enter the field of AIDS/STI prevention with sex education and therapy skills presently unavailable at other institutions of higher learning. This is the only professional sexologically-oriented AIDS/STI prevention credential available at this time.

The credential requires 20 hours of "at home" preparation, successful completion of Course #350 STI's: A Sexological Health Perspective, a 5-day, 3 unit practicum, and Course #311 SAR or equivalent. This program will provide basic information about the divergent sexual lifestyles and special sexual problems AIDS educators encounter daily; help participants develop an effective sexual comfort level; teach participants the relevant sexological theory and practical strategies for AIDS prevention work; address the symptoms of STIs with differential diagnosis and treatment modalities; and give participants extensive direct practical experience using sexological techniques, teaching strategies and explicit materials for AIDS/STI prevention. Cost of this program is \$3,950.00 plus a \$100.00 application fee and includes the books *SEXUAL STRATEGIES FOR PLEASURE AND SAFETY* and the *SARGUIDE FOR A BETTER SEX LIFE*.

EROTOLOGY CERTIFICATE

One trimester of graduate study in Erotology. 15 trimester units (500 contact hours). This is a survey course of the history of our erotic heritage of the 20th Century. The materials for this course are provided to each participant, and are drawn from the 15 libraries of the Exodus Trust

Archives of Erotology. Workbooks, text, DVDs, and/or audiotapes are provided for each student to develop their own library.

Students keep all materials provided to them. A project report is required. Tuition is \$5,000.00 plus a \$100.00 application fee. STUDENTS RECEIVE ALL PRINTED MATERIALS AND DVDS AT THE TIME OF ENROLLMENT, THEREFORE THERE WILL BE NO REFUNDS ISSUED.

PAYMENT

Tuition is payable in US dollars, with a check drawn on a U.S. bank, by international money order or credit card (VISA or MasterCard). Please note that a 4% surcharge will be added if paying with a credit card.

The Institute offers a variety of courses open to the general public. For more information write to: Continuing Education Courses, The Institute for Advanced Study of Human Sexuality, 1966 Tice Valley Boulevard #514, Walnut Creek CA 94595-2203, or call 925.349.9050.

CURRICULUM AND INSTRUCTION

The year at the Institute consists of three trimesters of four months each, beginning October 1, February 1, and June 1. During the first trimester, each student meets with an assigned faculty member to work out a Memorandum of Understanding. The Memo is not a contract but an agreement that serves as a guideline for the student's academic program at the Institute. In order to facilitate the entry of new students into the Institute, a half-day orientation session is held at the beginning of each trimester and handbooks are distributed which explain resources, Institute policies, etc.

The Institute uses the Comprehensive Examinations as a primary source of knowledge rather than just the accumulation of units. However, each full-time degree student is expected to complete at least 12 units of work each trimester. One unit/credit is the equivalent of approximately 15 classroom hours, or one semester hour and represents, for the average student, 45 hours, including work performed off campus.

All papers, projects and reports are due in the Registrar's office by the last day of each trimester. All grades at the Institute are either "pass," "fail", "no credit", or "incomplete". Degrees and certificates are awarded upon completion of all requirements and graduation ceremonies are held as needed.

The Institute for Advanced Study of Human Sexuality believes that an interdisciplinary, functional approach to human sexuality is necessary. Following are the required parts of the curriculum required for various degree and professional certificates:

1. THE WARDELL B. POMEROY LECTURE SERIES #100

The lecture series is offered three times a year, once each trimester and consists of 30 hours of general lectures covering the core areas in the field of human sexuality. Time for individual consultation with faculty and guest lecturers presenting each Wardell B. Pomeroy Lecture Series will be available during the series. All lectures are recorded and a copy is placed in our library. This affords students an opportunity to view past lectures as well as to refresh their memories about current issues.

Each lecture in the series is designed to help the student prepare for the Comprehensive Examinations by providing a takeoff point for further study. Each series during the year is different and is designed to give students basic and advanced information, including lists of books, media and other available resources, on the topic under discussion. In some cases, the information given in the lecture will be all the student needs; in other cases, additional courses and study will be necessary.

Credit for the Pomeroy Lecture Series will not be given until all book reports and annotated bibliographies are completed and accepted for the specific degree tract.

2. PRACTICA

Practica (courses in practical theory) are required for all degree students. These courses are the result of 22 years of careful testing and evaluation on how to help people learn about and understand their own sexuality and the sexuality of others in the shortest possible time. The educational methodology used in these courses is only possible because of the unique media resources available at the Institute teaching sites or sent to students.

3. BOOK REPORTS, ANNOTATED BIBLIOGRAPHIES AND DVD REVIEWS

All degree students are required to write 4 book reports from the following 5 books:

The Sex Researchers by
Edward Brecher

*Sexual Behavior In
The Human Male* by
Alfred Kinsey

*Sexual Behavior In
The Human Female* by
Alfred Kinsey

*What Wild Ecstasy: The
Rise and Fall of the Sexual
Revolution* by John Heidenry

*Treatment Of Sexual
Dysfunction* by William
Hartman and Marilyn Fithian

In addition, Master's degree students must do 24 and Ph.D., Ed.D. and D.H.S. students must do 36 annotated bibliographies or media reviews before the Comprehensive Examinations can be taken.

To become a qualified sexologist, a considerable understanding of the field is necessary. This includes history, theory, research, therapy, education, anatomy and physiology, religion, anthropology, sociology, psychology, law, art (to name only some of the important areas). The reviews and papers not only serve as a study aid but also tell the Institute when students are ready to take their Comprehensive Examinations.

Books are to be selected by the student and must be acceptable books on human sexuality. It is suggested that students use the current recommended bibliography; however, other books on human sexuality may also be selected, particularly if they are recent ones published after the bibliography was printed.

All media reviews must be of past lecture series or approved Independent Study Program media. Each media review must be based on 15 hours viewing..

It is expected that all students will read many more books than those actually reviewed.

4. SEX HISTORIES: INTERVIEWING AND CODING #421

This course is recommended for all Institute students. See listing of academic courses for a description.

5. CLINICAL STUDY AND SUPERVISION

Clinical sexology, which is essentially the application of the knowledge base to the sexual concerns of the individual, is the logical extension of sexology into the helping professions. Classes in history, theory, therapeutic techniques and clinical research are available to all students and required for those on a clinical track.

6. BASIC RESEARCH PROJECT #110

Required for all doctoral students, the project consists of obtaining a sample of at least 100 persons in a homogenous group, i.e., alcoholics, S/M, elders, members of an organization, etc., to fill out the Institute Sex Profile. Data from the profiles must be analyzed in comparison with similar data, and presented and accepted before Comprehensive Examinations are taken. 5 units credit upon completion. Specific details can be found in the Student Handbook.

7. COMPREHENSIVE EXAMINATIONS

These examinations are the capstone to the total curriculum. There is a basic body of knowledge that all professional sexologists must have at their disposal; the examinations test the student's grasp of this material. The student is eligible for examination upon completion of all required work and approval of the faculty. Further details can be found in the Student Handbook.

8. DISSERTATIONS, PROJECTS AND THESES

The procedure for doctoral dissertations and projects, and masters' theses, is outlined in the Student Handbook.

9. ACADEMIC DEGREE CANDIDACY

All degree students must complete at least two certificate programs or complete a professional degree before they can petition for acceptance for academic degree candidacy.

FINANCIAL COSTS AND POLICIES

Tuition for all degree students is \$7,875.00 per trimester or \$23,625.00 for the three trimesters in any twelve-month period. The Institute reserves the right to change tuition and fees at any time. Tuition payments and other financial matters are administered by the Comptroller's office.

Payment of tuition is due, along with the trimester registration form, ON THE 15TH OF THE MONTH PRECEDING THE BEGINNING OF A TRIMESTER. The registration form is combined with the trimester sign-up sheet for courses which is mailed to all students 1-1/2 to 2 months before the beginning of each trimester. For the trimester beginning October 1, tuition is due September 15; for the February 1 trimester, due January 15; for the June 1 trimester, due May 15. Registration forms and tuition must arrive together. No registration will be accepted without tuition.

All tuition payments received after the date due will have a \$100.00 late fee added. If tuition, late fee and registration are not received by the date the trimester begins the student will be dropped. NO EXCEPTIONS WILL BE MADE. Students are responsible for paying tuition on time, in US dollars, with a check drawn on a U.S. bank, or by international money order. Tuition can also be paid using a credit card (VISA or MasterCard). Please note that a 4% surcharge will be added if paying with a credit card.

NEW STUDENTS MUST PAY THE FIRST TRIMESTER'S TUITION IN FULL BEFORE TAKING ANY CLASSES. After the first trimester, students may make payment in full, in two equal installments or monthly payments. Students who opt for the two-payment or monthly payment plan must get approval from the Comptroller's Office before registering. MONTHLY PAYMENTS ARE AT THE DISCRETION OF THE INSTITUTE. The first installment is due as detailed above, and the second installment is due on November 15, March 15, or July 15, depending on the trimester. Students who are late paying the second half of the tuition will have the two-payment privilege revoked. Non-payment of the second half of tuition within the trimester due will result in the student being dropped without credit being given for any work done during that trimester.

Students who plan to change status must so inform the Institute on the trimester registration form. This means changing from full-time to leave of absence status. If a request for leave of absence is made, the TOTAL fee for the period of absence must accompany the request.

DISSERTATION/PROJECT/THESIS TRIMESTER

Tuition for the first four trimesters following the passing of the Comprehensive Examinations is \$4,145.00 per trimester. If additional time is needed the tuition is \$2,075.00 per trimester. During this time the candidate may take courses as desired, unless they are repeats of courses previously taken. Attendance at the Wardell B. Pomeroy Lecture Series will be credited on the candidate's transcript at 2 units only, since written work will have been completed.

The \$4,145.00 tuition presumes that all required work has been

completed before the student takes the Comprehensive

Examinations. If the student is allowed to take the

examinations before finishing all required work, regular tuition will apply for the next trimester and for as long as the student's work is delinquent unless written permission is given to delay certain work to a specific time.

Tuition covers all courses given during a trimester, but for one time only. Courses may be repeated only with the approval of the course instructor and if space is available. The eight-day summer SAR course may be repeated on space available basis for a fee of \$400 to cover actual costs.

Students are expected to be continuously enrolled for their program of studies until all requirements for a degree are completed and the faculty has recommended the granting of a degree. Any exceptions will be subject to the policies listed.

ENROLLMENT AGREEMENT

The student has a right to cancel the enrollment agreement and obtain a refund of charges paid through attendance at the first class session, or the seventh day after enrollment, whichever is later.

THE TUITION IS AS FOLLOWS:

Full time tuition is \$7,875.00 per trimester

Dissertation tuition is \$4,145.00 per trimester for four consecutive trimesters

Continuation tuition is \$2,075.00 per trimester until completion of dissertation or project

Leave of Absence is \$850 for first – all subsequent Leaves are \$2000 per trimester

Certificate Tuition:

*Associate in Sex Education Certificate is \$4,150.00

*Clinical Sexology Certificate is \$4,150.00

Erotology Certificate is \$5000.00

AIDS/STI Prevention Certificate is \$3950.00

Sexological Bodywork Certificate is \$4,025.00

*If the student enrolls for both Certificates at the beginning the total price is \$7,875.00. If paid for one at a time, the cost is \$4,150.00 each.

PAYMENT PLANS

There is no payment plan for first trimester students. From second trimester on, you may arrange a payment plan with the Comptroller. All payments are due no later than the 15th of the month. If not received by that date a \$100.00 late fee will apply. NO EXCEPTIONS.

For students required to pay the Student Tuition Recovery Fund, the fee is non-refundable.

The Institute does not participate in any state or federal aid program.

The Institute has never filed for bankruptcy or Chapter 11.

STUDENT REFUND POLICY

The student has a right to a full refund of all charges less the amount of \$100.00 for the registration fee if he/she withdraws prior to or on the first day of instruction.

In addition, if a student withdraws from a course during the first week of the trimester, 50% of the tuition will be refunded. During the second week of the trimester, the student is entitled to 25% tuition refund. After that, no refunds will be made.

Students receiving educational media for the various certificate programs will not be eligible for a refund once the media has been received.

Any request for a refund is required to be made in writing to:

The Institute for Advanced Study of Human Sexuality
ATTN: Office of the Comptroller
1966 Tice Valley Boulevard
#514, Walnut Creek CA 94595-2203.

Refunds will be paid within 30 days of cancellation or withdrawal.

REFUND POLICY FOR VETERANS

This school has and maintains a policy for the refund of the unused portion of all tuition, fees, and other charges in the event the veteran fails to enter the course or withdraws or is discontinued therefrom at any time prior to completion and provides that the amount charged to the veteran for tuition, fees, and other charges for a portion of the course does not exceed the approximate pro-rata portion of the total charges for tuition, fees, and other charges that the length of the completed portion of the course bears to its total length.

The student has a right to a full refund of all charges less the amount of \$10.00 for the registration fee if he/she cancels this agreement prior to or on the first day of instruction.

OTHER COSTS

Students need to plan for such costs as travel and housing while in residence at the Institute. There will also be additional costs for books, copies of media and other learning resources as desired by the student. The Institute will

plan with the student on developing access to resources.

Although the Institute does not have student housing, staff will work with entering students to find housing for the first time they are in San Francisco. A listing of hotels and residence inns near the Institute is available from the Registrar.

LEAVE OF ABSENCE

Students enrolled in the Institute are entitled to one trimester Leave of Absence at tuition of \$850.00 prior to the time of taking the Comprehensive Examinations for degree students. No consecutive leaves are allowed unless arranged at the time of admission. Students who arrange to take additional leaves will pay \$2,000.00 per trimester. For degree students **NO LEAVE MAY BE TAKEN AFTER COMPREHENSIVES HAVE BEEN PASSED.** Request for Leave of Absence is made on the trimester registration form and must be received with the Leave of Absence fee at the time tuition is due. Students on Leave of Absence will be considered "nonstudents" for that trimester and no faculty time will be available to them. The library will be open to students on Leave but they may not check out books or media. Any reports turned in while on Leave will be put on hold until the student registers for full-time again.

Exceptions to the above policy are: reasons of serious illness or serious illness in the student's immediate family; need for maternity or paternity leave. Unpaid emergency leave must be applied for in writing and accompanied by a letter from a physician.

Students who drop out of the academic program and then

reapply for admission will reenter under the terms of the new catalog and be required to add one full trimester to the number of trimesters required by their original Memorandum of Understanding. To be readmitted, the student must fill out a new application, submit the application fee, and update his or her resume to cover the time, which has passed since withdrawal.

INDIVIDUAL CONSIDERATION

It is necessary for the Institute to have general procedures which students will follow. However, the Institute is aware of the needs of individuals and will make every effort to work with a student on the basis of his/her unique situation.

GRIEVANCE PROCEDURES

The Institute's grievance procedures are available to students who believe the Institute has acted unfairly toward them or has failed to follow its stated policies.

1. If for any reason student has a grievance, that student may put that grievance in writing and present it to the Dean of Students.
2. The Dean of Students will meet with the student to determine if the problem can be resolved easily. Primarily this will be a fact-finding meeting.
3. A meeting will be scheduled with the administrator or a faculty representative and student. The Dean of Students will be present. Primarily this will be a resolution or course-action meeting.
4. If there is no resolution, the written grievance is sent to one of three administrators: financial matters go to the Comptroller, academic or

curriculum matters go to the Academic Dean, and administrative matters go to the President.

5. If there is no resolution, the written grievance, along with a written report from one of the chief administrators, then goes to the Board of Directors. The Board will provide a hearing or name an investigative committee, which will make a report to the Board. A copy of this report is provided to the student. The Board's decision, based on the hearing or investigative report, is final.
6. If the student still feels that the grievance has not been resolved satisfactorily, he/she may contact the Bureau for Private Postsecondary Education.

Students are free to first and immediately contact the Bureau.

TRANSCRIPTS AND STUDENT RECORDS

The Registrar's Office maintains all graduate records, copies of papers and projects, performance evaluations, and records of courses completed. Transcripts are updated at the end of each trimester.

The Institute has a rather elaborate system of keeping records. Three sets of records are kept for current students.

- A. Transcripts of work completed are kept in a fireproof cabinet.
- B. Work product including reports and papers, records of courses completed, research projects and committee evaluations are kept in a master file in the Registrar's Office. Financial records are kept in the Business Office.

- C. Confidential records are kept in the office of the Academic Dean and are only viewed with the student's approval and appropriate institutional representation. Confidential records of the students are either destroyed at the time of graduation or given to the students if they choose to withdraw from the program.

It is the policy of the Institute to keep all students records in the several files in the Registrar and Comptroller's offices for a period of five years; transcripts are kept indefinitely. At that time student's records are put into a storage facility in the basement of the Institute and are to remain there for the required fifty-year period.

Students may have access to their own records as needed, as may members of the faculty. Student files are not accessible to any other person unless the student so requests in writing.

The custodian of records is Winnie McIlvenna who is at 1966 Tice Valley Boulevard #514, Walnut Creek CA 94595-2203. Her phone number is 925.349.9050. Her email is winnie@iashs.edu.

POLICY CHANGES

The Institute reserves the right to change or modify academic, administrative and financial policies as necessary, while recognizing its obligation to give students adequate notice of any changes. Any questions about any of the above must be submitted in writing.

STUDENT SERVICES

The majority of the learning resources used by the Institute students are available only at the Institute. A special orientation and training for

students is necessary so that they can take advantage of what is available. Four methods are used:

1. An initial orientation when students first enter.
2. A 300-page standard operating manual is provided.
3. A special session for new students with older students is scheduled.
4. A Student Services Director is available at the Institute at least 20 hours per week and by special appointment if needed.

The Institute does not have dormitory facilities. Students are responsible in securing their own housing. A list of short-term places to stay that are near the Institute is available to students. Some residence clubs and hotels offer weekly rates ranging from \$190 - \$350 per week.

Archived lectures can be viewed by special arrangement with faculty. All matriculated students at the Institute have available to them all primary material needed for the academic and professional study of sexology and erotology.

STUDENT LOAN

The Institute does not participate in any state or federal student loan programs.

If the student obtains a loan to pay for an educational program, the student will have the responsibility to repay the full amount of the loan plus interest, less the amount of the refund.

If the student is eligible for a loan guaranteed by the federal or state government and the student defaults the loan, both of the following may occur:

1. The federal or state government or a loan guarantee agency may take action against the student, including applying any

income tax refund to which the person is entitled to reduce the balance owed on the loan.

2. The student may not be eligible for any other federal student financial aid at another institution or other government assistance until the loan is repaid.

If the student has received federal student financial aid funds, the student is entitled to a refund of the moneys not paid from federal student financial aid program funds.

The Institute has never filed for bankruptcy or Chapter 11.

APPLICATION PROCEDURE

Basic requirements for admission into any of the Institute's programs include a baccalaureate degree or equivalent and good skills in speaking, writing and understanding the English language. Those seeking entrance based on equivalency must detail such experience in their application and will be considered for admission to the Master's or certificate programs only. Evaluation will be made by the Admissions Committee. The Faculty Council must concur.

Applications must be complete and at the Institute at least one month before the trimester in which the applicant hopes to begin. Most professional certificates require full enrollment in the school before a certificate can be given.

All application materials must be sent to the Registrar.

1. Obtain an application form by writing the Registrar, The Institute for Advanced Study of Human Sexuality, 1966 Tice Valley Boulevard #514, Walnut Creek CA 94595-2203.
2. Send the completed application form to the Registrar at the above address.
3. Enclose an application fee of \$100.00 payable in US dollars, with a check drawn on a U.S. bank, by international money order or credit card. Applications will not be processed without the fee. If application is denied, the fee will be refunded.
4. Enclose a detailed resume, including education and work in the field of human sexuality.
5. Enclose a letter of intent and interest including your reasons for applying, education and learning goals, research interests, statement on human sexuality and professional aims.
6. Enclose a current photograph.
7. Arrange for graduate and undergraduate transcripts to be sent directly to the Registrar from each school attended.
8. Arrange for two letters of recommendation to be sent directly to the Registrar.

Admission is held active for three years, following which, a student must reapply if not enrolled in a course of study.

All class sessions are held at the Institute's main campus.

All courses are taught in English only. The Institute does not provide English language services.

**NOTICE CONCERNING
TRANSFERABILITY OF
CREDITS AND
CREDENTIALS EARNED AT
OUR INSTITUTION**

The transferability of credits you earn at The Institute for Advanced Study of Human Sexuality is at the complete discretion of an institution to which you may seek to transfer. Acceptance of the degree or certificate you earn in the educational program is also at the discretion of the institution to which you may seek to transfer. If the degree or certificate you earn at this institution is not accepted at the institution to which you seek to transfer, you may be required to repeat some or all of your coursework at that institution. For this reason you should make certain that your attendance at this institution will meet your educational goals. This may include contacting an institution to which you may seek to transfer after attending The Institute for Advanced Study of Human Sexuality to determine if your degree or certificate will transfer.

**TRANSFERRED CREDITS
POLICY**

A. The process of evaluation of transfer credit is done by a committee appointed by the Academic Dean. Since most of the Institute students are mid-career

professionals and many have extensive backgrounds both experientially and academically it is often difficult to sort out if what students have done fits into the Institute's program. Only one trimester of credit will be given but a readjustment of courses may be made to fit the needs of particular students.

B. Specification for Granting Academic Credit. One of the objectives of the Institute is to give credit to people in the sex field for what they have already done. We ask persons to document and provide verification for workshops, training, seminars, study programs and job experiences in the field of human sexuality. The procedure is as follows:

1. During the initial inquiry, students are asked about what experience they have had and document that experience at the time they submit the application materials.
2. The Admissions Committee recommends to whoever is working out the Memorandum of Understanding with the student the

amount of credit, which the Admissions Committee feels, should be granted.

3. A frank discussion is held with the student, at which time the recommendations are made and the student is given a chance to respond, challenge or ask for time to provide additional verification.
 4. A few students who have vast experience as well as extensive academic professional backgrounds are allowed to be in a special honors program. These students are given two calendar years, but are allowed to finish in three trimesters if they can, plus a dissertation trimester to a two academic team program.
 5. Given the amount of material to be covered it is almost impossible for a student to finish in less than two years even if they already have a doctoral degree.
- C. The person responsible for this process is the Academic Dean.
- D. At the times of Comprehensive Examinations the committee and the Academic Dean will reexamine the file and make any report of deficiencies or

remedial work needed or irregularities in the process.

- E. The Institute no longer gives credit for life experience. Over a period of years of evaluation, we have decided that there is no way of doing this in an objective way that works for both the student and the institution.

There is no licensure in sexology except by the State of Florida. Many of our graduates, however, are employed in the field of sexology.

The Institute does not provide placement services.

FACTS ABOUT RECEIVING CREDIT FOR PRACTICUM COURSES AND ATTENDANCE POLICY

This section is to clarify the procedure whereby students receive credit for attendance at practicum courses (such as #101, #201, #311, #350, #561, #571 and #902). The following are the requirements for passing

and receiving credit for a practicum:

1. You must a) register for each specific practicum course, b) turn in an attendance slip (see below, "Attendance Slips"), and c) turn in a practicum report. Credit will not be given until the practicum report is turned in and accepted.
2. Arrive promptly for all sessions. Full-time, total participation in practica is required. This is integral to the educational process and experience, and it is simple courtesy to other participants.
3. Reports are due in the Registrar's office within 4 weeks after you take each practicum, unless special arrangements have been made. The Registrar will transfer them to the appropriate instructor. You will not get these back unless they are inadequate or there is some question about them. Please keep

copies for your own records.

4. Practicum reports should reflect what the course mean to you in a personal sense, focusing on each area covered during the course. The personal focus helps ensure that, though you are professionals, you can also apprehend how the courses may be experienced by non-professionals. Be aware that by "personal" we do not mean that we wish you to include names of others with whom you may have interacted with during the practicum. For two-day courses, two pages is sufficient, for longer courses, at least two pages is required. A critique of the course is NOT what is wanted.
5. A "PASS" will be noted on your transcript when you have turned in the report. If no report is handed in, a "N/C" will be noted on your transcript.

COURSES

The Pomeroy Lecture Series and practica are required for all students:

#100 WARDELL B. POMEROY LECTURE SERIES

The lecture series is offered three times a year, once each trimester and consists of 30 hours of general lectures covering the core areas in the field of human sexuality. Credit for the Pomeroy Lecture Series will not be given until all book reports and annotated bibliographies are completed and accepted for the specific degree tract.

PRACTICA

In the required practicum courses, credit will be awarded when the student turns in a brief written report on what the course meant to him/her in a personal sense. A critique of the course is not what is wanted.

#101 INTRODUCTORY COURSE IN HUMAN SEXUALITY 1 Unit

A comprehensive view of human sexuality and an introduction to the Sexual Attitude Restructuring (SAR) process, covering endorsement, communication, fantasy, masturbation, homosexuality and bisexuality, desensitization and resensitization, female and male sexuality, sexual enrichment, special problems, sex therapy and cultural expression.

#201 ADVANCED SEXUALITY 1 Unit

This course covers areas of human sexuality not discussed, or discussed only briefly, in the #101 course. This includes adolescent sexuality, sadomasochism, group sex, transsexualism, and transvestism, and more on sex and disability and on sex counseling. #101 is a prerequisite.

#311 SAR 4 Units

An intensive 8-day educational and experiential program for sex educators, therapists, counselors. Each year's SAR focuses on new methodologies in the sex field and new applications of the SAR process. An integral part of SAR is the opportunity for interaction with professionals from throughout the world who attend.

#350 STIs: A SEXOLOGICAL HEALTH PERSPECTIVE 3 Units

A five-day study of symptoms, prevention and treatment of sexually transmitted infections (STIs). A study of the latest research findings, multiple diagnoses and co-factors, epidemiological programs and advanced intervention strategies. Completion of this course and the SAR entitles the academic student to the Sexological Instructor/Advisor of AIDS/STI Prevention certificate.

#561 PRACTICAL SKILLS WORKSHOP 1 Unit

Concentrates on learning skills rather than theory. Included are the use of media, massage, psychodrama, exercises, fantasy, development, body awareness, communication skills, why the SAR process works, and how to run a sex workshop.

ELECTIVES

The following courses are not required for all students, but some may be required for specific objectives, e.g., counseling or therapy. In some courses books may be assigned, in others a paper integrating what the student has learned may be required. Some of the courses are on DVD and may be viewed by the student at the Institute or, by special arrangement, at home. Students must contact faculty before beginning a DVD course. Other courses will be given from time to time, either around the Wardell B. Pomeroy Lecture Series block of courses or at another time during a trimester. Students are urged to choose elective courses covering those areas in which they feel they are the least knowledgeable.

If students wish to do work in areas not covered by the listed courses, they may do so with the written approval of a faculty member. Courses may be added, deleted, or changed as deemed appropriate by the Institute and based upon the needs of the students.

#331 SEX EDUCATION PROGRAMS *1 Unit*

A variety of sex education programs are presented by leaders in the field of sex education. Populations dealt with include children, adolescents and adults. The course gives a broad

background in a variety of methodologies.

#402 HISTORY OF SEXOLOGY *1 Unit*

An introduction to the history of the rational and systematic investigation of sexual problems from ancient Greece to contemporary Europe and America. Among the historical figures covered are Hippocrates, Soranus, Galen, Ibn Sina, Leonardo da Vinci, Fallopio de Graaf, de Sade, Malthus, Kaan, Morel, Magnan, Burton, Krafft-Ebbing, Schrenck-Notzing, Ellis, Freud, Forel, Bloch, Moll, Hirschfeld, Steinach, Reich, Kinsey, and Masters and Johnson.

#411 RESEARCH DESIGN AND IMPLEMENTATION *2 Units*

A basic course for students needing to learn about, or review, design and research methods and elementary statistics.

#421 SEX HISTORIES: INTERVIEWING AND CODING *2 Units*

This course has two facets. The first is concerned with how to obtain sexual and social information from a wide variety of people. This will be done through role playing in the classroom and practicing with others outside the classroom. The techniques developed at the Institute for Sex Research (where over 18,000 sex

histories were taken) will be used. At the same time, a system of coding these data will be taught by which the equivalent of 25 typewritten pages can be recorded on one 8-1/2" x 11" sheet. This course is of particular interest to therapists, sex educators, anthropologists, and sociologists.

#501 CONCEPTS AND METHODS OF SEX THERAPY *1 Unit*

This course includes basic counseling skills, a survey of historic methods of sex therapy, and extensive examination of current sex therapy methods and procedures. Several different philosophies of sex therapy are compared. ON DVD

#502 HISTORY AND THEORY OF THE HELPING PROFESSIONS *1 Unit*

A survey course of the history, philosophy and justification for the establishment of the major helping professions in the 20th Century and the theoretical framework in which they continue to exist as socially valuable. The evolution of clinical sexology.

#504 METHODS OF SEX THERAPY *2 Units*

A review of sex therapy techniques, how they were developed, the rationale for their use, implementation strategies, and assessment

of effectiveness. Comparisons among the different theoretical approaches will be stressed to allow the student to develop an eclectic approach. Role playing techniques with an emphasis on the resistant client will be used. A paper will be required.

#505 CLINICAL SEXOLOGY: A DEVELOPMENTAL PERSPECTIVE *3 Units*

An introductory survey course beginning with the historical and theoretical roots of the discipline. Considers the developmental sequencing of sexual systems from the subcellular to the social levels. The course provides a foundation in the basic biomedical and psychosocial sciences essential for clinical practice. #101 and #201 are prerequisite.

#506 CLINICAL SEXOLOGY: CLINICAL SYNDROMES *3 Units*

A systematic examination of the clinical syndromes in the areas of sexual dysfunction, sexual disorder, and gender dysphoria which the clinician will encounter in practice. The approach will continue the developmental perspective of #505 and focus on behaviors, cognition, phenomenology, value structures and social scripting as they apply to syndrome development and

expression throughout the life cycle. #101 and #201 are prerequisite.

#507 CLINICAL SEXOLOGY: THERAPEUTIC INTERVENTIONS *3 Units*

An examination of the process and techniques of differential diagnosis and treatment of sexual problems from the perspective of major models of clinical sexology. The emphasis of the course is on gaining the practical skills necessary to diagnose and treat sexual problems in clinical practice. #101 and #201 are prerequisite.

#511A CLINICAL SEXOLOGY (SUPERVISED) *4-8 Units*

A counseling practicum under supervision requiring 100 classroom hours and 100 hours of seeing clients. Entrance to the course is by permission of the instructors. Students will be required to make case presentations; the course will include role playing, general discussion and didactic information. Course prerequisites may be required.

#511B CLINICAL SEXOLOGY (SUPERVISED) FOR NON-RESIDENTS *1-8 Units*

A counseling practicum as above, except under the supervision of a sex therapist who is not a member of the Institute's clinical faculty.

Approval of the supervising therapist by the Institute clinical faculty and documentation of cases to the clinical faculty are required. The amount of credit given will be determined by the clinical faculty when the work is evaluated.

#515 SMALL GROUP FACILITATION *2-4 Units*

For students who wish to facilitate a small group during SAR #311 (4 units), or Practical Skills Workshop #561 (2 units). Prerequisites are prior small group leader experience, prior attendance at the practicum in question, and permission of the instructor. Full-time attendance and participation in the practicum is required. Facilitators will be supervised during the time of the workshop.

#521 SEX, ANATOMY AND PHYSIOLOGY *1 Unit*

A technical look at the body and its sexual function.

#522 BASIC GYNECOLOGY FOR SEXOLOGISTS *1 Unit*

A survey of the anatomy and functioning of the female genitalia; physiological etiology of sexual dysfunction; impact on functioning of medications, sexually transmitted diseases (including treatment); and surgical techniques.

#523 BASIC UROLOGY FOR SEXOLOGISTS *1 Unit*

Sexological implications of medical interventions, i.e., penile implants, hormone injections.

#525 SOCIAL EPIDEMIOLOGY FOR SEXOLOGISTS *2 Units*

An examination of the distribution and determinants of various states of health populations, including HIV/STI. ON DVD

#576 SEXOLOGICAL BODY THERAPY *3 Units*

A 50-hour course in basic massage.

#581 ADVANCED TECHNIQUES IN BODY WORK *6 Units*

A practicum stressing the value of various bodywork techniques for persons intending to work in the field of sex therapy and counseling.

#585 ROLE PLAY AND PSYCHODRAMA TECHNIQUES *1 Unit*

Discussion of the theory of role play and psychodrama techniques followed by demonstration and practice. Aimed at assisting sexology students with interpersonal and intrapsychical issues that may come up in counseling, therapy and education classes.

#601 MEDIA REVIEW *3 Units*

A thorough review and analysis of sexually explicit material with particular emphasis on films and videotapes in the archives of the Institute. Coding of sexual activity will be taught and used. 15 classroom hours, 30 hours film/tape viewing and coding.

#605 ARCHIVAL CURATION *1 Unit*

This is an individual course of study which focuses on the method and application of preserving the material in the Exodus Trust Archives of Erotology. It involves sorting, identifying, preserving and transferring material to a video or slide format as well as entering the material into a computer data base.

#611 PRACTICAL USES OF MULTI-MEDIA TECHNIQUES *1 Unit*

Explores the historical and current relation of sex and media. Various hardware and software media options will be demonstrated and discussed as to how they relate to sex education and therapy.

#612 MEDIA PRODUCTION *3 Units*

Explores the process and production of a multi-media project by the members of the class. 15 classroom hours, 30 hours outside class

over a six-week period. Course #611 is a prerequisite.

#613 SEXUAL ARTIFACTS *1 Unit*

A sexological exploration of objects which have been created in response to sexual desire and experience. Sexual artifacts, e.g., erotic playing cards, postcards, music, painting and sculpture, will be examined within their historical and cultural contents.

#644 ADOLESCENCE AND SEXUALITY *1 Unit*

Physical and psychological aspects of adolescent sexual development and activity.

#651 ATTITUDES TOWARDS SEX AND DISABILITY *1 Unit*

This course examines various disabilities including physical (and "invisible" disabilities), acquired and congenital, and mental health issues. Discussions and guest speakers, videos and role-play are combined to educate the student about the historical background and fight for disabled rights (ADA), the issues of chronic illness/pain, the challenges and impact of disability on family, relationships, lifestyle and sexuality.

#655 SEX, GERIATRICS, ILLNESS AND DISABILITY *1 Unit*

An examination of the sexual potential and rights of older persons, disabled persons and those suffering from chronic illness. A general survey of the myths concerning these classes of people.

#677 MALE AND FEMALE HOMOSEXUALITY AND BISEXUALITY 1 Unit

A course designed to expose the student to the range of diversity of women and men who identify as homosexual or bisexual. In addition to basic reading, the student will hear from gay men, lesbians, and bisexual women and men about how they perceive their lives both personally and politically; the joys and problems encountered. Discussions will include sexuality, safer sex issues, coming out, parenting, myths and realities, history, and the legal ramifications of leading alternative lifestyles.

#701 SEX AND SOCIETY 1 Unit

An examination of human sexuality in various societies including contemporary society. Among the topics covered are the social role of men and women, conformity and deviance (moral, legal and medical), marriage and the family, the sexually oppressed, sex education and sexual ethics. ON DVD

#711 SEX, RELIGION AND THE LAW 2 Units

A survey of sexual oppression in our society in relationship to the law. Included will be a careful examination of the Commission on Obscenity and Pornography report as well as the history of religious attitudes toward sexual behavior and their influence on the law.

#715 SEXUALITY, RELIGION AND POWER 1 Unit

Students will develop an ability to analyze sexual issues as they relate to religion, to create options for choice and strategies for dealing with power tactics, and to develop a professional commitment that may affect sexual change in cultural values.

#721 FORENSIC SEXOLOGY 1 Unit

The step-by-step process involving the place and purpose of the sexologists in court proceedings.

#731 SEX AND RELIGION 1 Unit

A historic and current look at the many and varied ways in which Western and non-Western religions view the role of human sexuality.

#741 SEX AND ETHICS IN THE HELPING PROFESSIONS 2 Units

Ethical issues between client and practitioner examined in the context of the history and

development of sex counseling, therapy and education.

#791 ANALYSIS OF THE KINSEY REPORTS 1 Unit

Co-author and Institute Academic Dean Emeritus Wardell B. Pomeroy discusses SEXUAL BEHAVIOR IN THE HUMAN MALE (1948) and SEXUAL BEHAVIOR IN THE HUMAN FEMALE (1953) chapter by chapter, summarizing and explaining the data. Male and female data are compared in terms of age, educational level, age at puberty, prepubescent sexuality, rural and urban differences, etc. Both volumes should be read before taking the course. ON DVD

#801 THE SEXUAL VARIATIONS 1 Unit

An examination of how people have organized their sexual lifestyles including communal living, swinging, S/M, group marriage and living single.

#811 BISEXUAL AND ANDROGYNY 2 Units

A survey of the emerging concepts of bisexuality and androgyny, including theory, social attitudes, literature and resources.

#821 CHILDREN AND SEXUALITY 1 Unit

Emphasis will be on children's awareness of their bodies and sexual feelings in an exploration of the growth and development of children from birth to adolescence.

#825 CHILD SEXUAL ABUSE: A PEDIATRIC PSYCHOSEXUAL FOCUS 1 Unit

Theoretical and practical approach to understanding the impact of sexual activity in childhood. Specific methods of dealing with age-appropriate sexual interest and behavior, and inappropriate or traumatic sexual experiences.

#831 GENDER IDENTITY 1 Unit

A two-part survey of (1) the field of gender dysphoria (transsexualism) and (2) transvestism. Emphasis will be on understanding and clarifying the two fields, on resources, and on concerns arising in counseling. ON DVD

#841 SEX OFFENDERS 1 Unit

A historical overview of the development of the medico-legal concept of sexual psychopathy and how the "sexual psychopath" statutes have applied. The course will also include a review of the treatment methods, the concept of dangerousness, and the basics of differential diagnosis. ON DVD

#902 WOMEN'S GROUPS 4 Units

A two-part practicum on how to direct groups for women who are preorgasmic or not orgasmic with a partner. The first session, #902A (2 units), is the leadership training. The second section, #902B (2 units), is supervised leadership of a women's group.

#950 MALE HOMOSEXUAL EROTICA 1 Unit

An exploration of historic and modern visual materials from the 19th and 20th centuries. Students learn methods of homoerotic critique.

#957 SEX AND CONTEMPORARY LITERATURE 2 Units

A survey course on sex as presented in literature available in the contemporary marketplace.

#960 HISTORY OF EROTICISM 2 Units

A survey course covering erotic antiquity, the Middle Ages, Victorianism and modern times. 60 hours of media.

#965 DIRECTED RESEARCH & VIEWING 2 Units

100 hours of classic historic videos and films, and 100 hours of classic erotological literature. All materials annotated. This course must

be planned in consultation with an instructor.

#970A EROTOLOGY AND SEXUAL CULTURE 2 Units

An in-depth exposure and evaluation of erotic expression and use in the last half of the 20th Century. 60 hours of video.

#970B EROTOLOGY AND SEXUAL CULTURE 2 Units

A continuation of #970A.

#980A EROTOLOGY APPRAISAL 2 Units

#980B EROTOLOGICAL EVALUATION AND APPRAISALS 2 Units

A continuation of #980A.

#980C EROTOLOGICAL CURATION AND APPRAISAL PRACTICUM 2 Units

#980D WORK STUDY IN EROTIC FINE ART CURATION 2 Units

DISSERTATIONS

1978

JUSTINE HILL
A Study of Male Genitalia

HAROLD S. ROGERS
Sexual Attitudes and Behavior of
People in the Process of Divorce: A
Study of Sexuality and Its Association
with Loneliness

1979

IRENE GAD-LUTHER
Types of Marital Interaction in Alcoholic
Family Systems and their Relationships
with Existing Patterns of Sexual
Difficulties

CHARLES ALLEN MOSER
An Exploratory-Descriptive Study of a
Self-Defined S/M (Sadomasochistic)
Sample

FRANK JEFFERSON TOMBRELLO
The Effects of Alkyl Nitrites on Male
Orgasm

MILDRED L. BROWN
Initiating Marital Coitus

1980

JACKIE V. DAVISON
Valium and Its Effect on Female
Sexuality: An Exploratory, Descriptive
Study

MARIAN E. DUNN
Women's Perceptions of Male Sexual
Attractiveness: The Role of Male Eye
Contact

JAMES EDWARD ELIAS
Adolescent Exposure to Erotica

JOHN MYRON HOLLAND
Education and Training of Health
Professionals in the Provision of Sexual
Health Care

RICHARD KAVICH-SHARON
A Comparative Evaluation of Sexual
Behavior Before and After Acute
Coronary Events in Selected Patients
and Their Partners

MERVYN LAWRENCE MASON
Perceived Sociosexual Compatibility of
Co-marital (Swinging) Couples as
Compared to Normative Married
Couples

SHAREN LEE SHAPIRO
Sexual Attitudes and Activities of
Obese Women

SAINT STROUD
A Study of the Increased Balance in
Preorgasmic Women's Sex-Role
Scores After Treatment

1981

RICHARD WAGNER
Gay Catholic Priests: A Study of
Cognitive and Affective Dissonance

DWIGHT DIXON
Bisexual and Heterosexual Swinging
Husbands: Their Androgyny, Orgasms
and Perceived Sexual Satisfaction and
Marital Happiness

JOAN K. DIXON
The Effect of Swinging on Initiating
Active Bisexual Behavior in Married
Women Over 30 Years of Age

CAROLYN ANN LIVINGSTON
Premature Ejaculation in Young Males

ALBERT Z. FREEDMAN
Extra-Monogamous Sex in Couple
Relationships

GEORGE DEWEY CANNON, JR.
The Effect of Topical Estrogen on the
Superficial Flow of Blood in the Breast
Area

PHYLLIS WYN O'FLATTERY
A Correlation Study of Emotional
Response to the Genitalia; Attitudes
Toward Masturbation; and the
Incidence and Frequency of
Masturbation in a Sample of
Professional Women

GINA OGDEN
Perception of Touch in Easily Orgasmic
Women During Peak Sexual
Experiences

1982

MARGUERITE RUBENSTEIN
An In-depth Study of Bisexuality and Its
Relationship to Self-Esteem

MICHAEL EARL PERRY
The Perceived Utility of Sexually
Explicit Video in the Sex Education of
Adolescents

DIANE LOUISE MORRISSETTE

The Effects of Diabetes and Blindness
on Female Sexual Response

MILDRED APTER-MARSH
The Sexual Behavior of Alcoholic
Women While Drinking and During
Sobriety

ELAINE S. SELESNICK
Lifetime Patterns of Ejaculatory
Frequency in the Human Male as a
Factor Contributing to Risk of
Symptomatic Benign Prostatic
Hyperplasia

1983

ERWIN ALBERT SCHILL
Women With Multiple Sclerosis: A
Study of Sexual Attitudes and
Behaviors

EVELYNE SCHREIER
Study on Endorphin Level in the
Plasma Before and After Orgasm

LOUANNE C. COLE
Utilization of Sexual Health-Promoting
Information by Women: Knowledge and
Performance of Kegel Exercises and
Locus of Control

BARBARA J. MERCER
Anal Eroticism in Women - An
Exploration of the Relationships
Between Sexual Preference and Anal
Sexual Behaviors, Fantasies, and
Attitudes

1984

SHIRLEE M. PASSAU-BUCK
Sexuality and Self-Concept
Characterization of Female Gynecology
Teaching Associates at a Mid-West
School of Medicine
BARBARA BERNACHE-BAKER
The Sexual Attitudes and Behavior of
Private and Public Secondary Students:
A Comparative Study

CHARLENE Q. ARBOGAST
The Effects of Mastectomy on the
Sexual Behavior of Fifty Women

JANICE BOWLES EPP
The Orgasmic Frequency and
Reliability of Assertive and Unassertive
Women

APPROVAL AND ACCREDITATION

The trustees and owners of the International Institute for Advanced Study of Human Sexuality registered as a non-profit private 501(c)3 tax exempt institution have decided to withdraw from any relationship with the Bureau for Private Postsecondary Education as of October 26, 2017. For 40 years, the

Institute has been the leader for advanced sex education in the world. The Bureau has known for years that we are a religious owned institution and has refused to acknowledge our religious status and exemption. We feel that we have been treated unethically, illegally and at times open bigotry towards who and what we are.

Presently the International Institute is accredited by the American College of Sexologists and we are a candidate for accreditation with the Accreditation for Career and Occupational Schools. As an exempt religious non-profit trust, the International Institute will be guided by the social principles of the Exodus Church and Ecumenical Center Trust and will be guided on an international basis by the First and Fourth Amendments of the United States Constitution.

Many people who choose sexology and commit themselves to the years of learning, collecting and service have trusted and presently trust the Institute to carry on the mission of the Institute in a worldwide basis.

The Institute and its degree programs are not accredited by an accrediting agency recognized by the US Department of Education.

- a. There is no licensure exam for sexology in California. Only Florida has such a license. As far as the Institute knows, all Institute graduates have been eligible to sit for this exam in the State of Florida.
- b. A degree program that is unaccredited or a degree from an unaccredited institution is not recognized for some employment positions, including, but not limited to, positions with the State of California.
- c. Students enrolled in the Institute are not eligible for state or federal financial aid programs.
- d. All prospective students are provided with program specific brochures prior to enrollment. The Institute will provide a school catalog as well as any other brochures upon request.

There is no licensure in sexology except in the State of Florida. Many of

our graduates, however, are employed in the field of sexology.

The Institute is a candidate for accreditation with the Accreditation for Career and Occupational Schools, 2580 Collin McKinney Parkway, Suite 3025, McKinney TX 75070, www.acos-edu.org, office: 214.842.4435, fax: 972.542.3494.

EXPECTATIONS INSTITUTE EXPERTISE EXPECTATIONS

1. All certificate and degree students will have expertise about sexual and reproductive anatomy and physiology, including but not limited to:
 - a. Male and female internal and external anatomy
 - b. The reproductive system of both sexes, and prenatal development
 - c. The physiology of males and females
 - d. The latest research from endocrinology and neuro-endocrinology on human sexual functioning
 - e. Erotic pathways
 - f. Conception
 - g. Sexual differentiation in fetal development
 - h. Complications related to health issues
2. All degree students shall have expertise about developmental sexuality, sexuality through the lifespan including but not limited to:
 - a. The psycho/social/sexual stages of human development
 - b. Lifestyle choices and their consequences
 - c. Gender issues
 - d. Theories of sexual orientation
 - e. Frequency of all sexual behavior
3. All degree students shall have expertise about value development in our culture as it relates to sexuality including but not limited to:
 - a. Social scripting and sexual behavior
 - b. Religious and ethical views of sexual behavior
 - c. Various theories on value development and sexuality

4. All degree students shall have expertise about medical aspects of sexuality including but not limited to:
 - a. Pharmacological implications upon sexuality
 - b. Hypertension and the sexual implications of its treatment
 - c. Psychiatric disorders and the paraphilia
 - d. Implications of endocrine disorders
 - e. Urologic and chronic illness
 - f. Spinal cord injury and sexual prognosis
 - g. Visual impairment and sexual functioning
 - h. Retardation and sexual functioning
 - i. Hearing impairment and sexual functioning
 - j. Cardiovascular disease and sexual functioning
 - k. Gynecological problems and sexual functioning
5. All doctoral level students shall have expertise in the legal and ethical issues in clinical sexology including but not limited to:
 - a. Love and sexual attraction
 - b. Theories of intimacy
 - c. Lifestyles and intimacy
 - d. Effective families and intimacy
6. All doctoral level students shall have expertise in the legal and the ethical issues in clinical sexology including but not limited to:
 - a. Concepts of consensual sexual behavior
 - b. Legal definitions of child sexual abuse
 - c. Legal definitions of exhibitionism
 - d. Legal definitions of obscenity
 - e. Legal definitions of sexual harassment
 - f. Implications of sex with clients
7. All doctoral level students shall have expertise in implications of sexuality and the sexually transmitted infections including but not limited to:
 - a. Causes, symptoms and treatments
 - b. Various myths about STIs
 - c. Social implications of STIs
 - d. Personal implications of STIs
8. All doctoral level students shall have expertise in the field of erotology including but not limited to:
 - a. Great works of historic erotic art defined
 - b. Finding and identifying American sexual artifacts
 - c. The use of sexual artifacts in sex education
 - d. The use of erotology in clinical sexology
9. All Doctor of Human Sexuality and Doctor of Philosophy in Human Sexuality students shall have expertise in diagnosis of sexual dysfunctions and disorders including but not limited to:
 - a. Definitions of clinical sexology
 - b. Identifying sexual dysfunctions
 - c. Definitions of sexual disorders
 - d. Identifying sexual distress and sexual trauma
 - e. Identifying desire phase disorders and their causes
 - f. Organic causes of sexual distresses and dysfunctions
10. All Doctor of Human Sexuality and Doctor of Philosophy in Human Sexuality students shall have expertise in treatment of sexual dysfunction and disorder including but not limited to:
 - a. Models of clinical sexology
 - b. Behavioral techniques examined
 - c. Emotive techniques examined
 - d. Cognitive techniques examined
 - e. Sex-negative messages
11. All Doctor of Education in Human Sexuality students shall have expertise in education models for dealing with sexual ignorance and misinformation including but not limited to:
 - a. Sexual learning theories examined
 - b. Sexuality courses of the past examined
 - c. Evaluating sex education
 - d. The design and development of sex-positive programs
 - e. The training of allied health professionals about sexology and designing courses for persons in special circumstances
12. All Doctor of Philosophy in Human Sexuality students shall have expertise in research fields and methods including but not limited to:
 - a. History of research in the helping professions
 - b. Developing research protocol
 - c. Longitudinal research on sexual matters

INSTITUTE COMPETENCY

SKILL EXPECTATIONS

1. Clinical skills and competencies:
 - a. To be able to choose a method of clinical intervention which is the most appropriate for dealing with and presenting clinical problems
 - b. To have the skills to use any of the contemporary therapeutic techniques in their newest form based on the differential diagnostic methods used by such people as Bill Masters, Albert Ellis and Marilyn Fithian
 - c. The competency to be able to choose between clinical sexological interventions and more traditional therapy and be able to refer when necessary
 - d. To have sufficient competency to understand one's personal sexuality and the skill to not become involved in a transference or counter-transference situation
 - e. To have the competency to be nonjudgmental when facing a patient's sex orientation or practices
 - f. To have the competency to understand and use appropriate referral techniques
 - g. The competency to take a complete sex history using sexological coding systems which protect the privacy of the patient
 - h. To have the competency to be able to use the knowledge of developmental sexology for people in different parts of their life cycle
 - i. To have the competency to deal with the situational factors that affect sexual values, sexual situations, and sexual functioning
2. Research competencies and skills
 - a. To have the competency to understand and use the uniqueness of sexological research as distinguished from sociological, medical and anthropological research
 - b. To have the skill to complete a basic sexological research project
 - c. To have the competency to design and submit research proposals that meet the research guidelines of other professionals, while at the same time maintaining integrity of the sexological orientation

- d. The competency to design, pretest, validate, and administer a research instrument
 - e. The competency to critically appraise research in the sexological field specifically, and other fields in general
 - f. The competency to be able to use the sexological research journals
 - g. To have the competencies to be able to choose and be able to use any of the statistical methodologies appropriate for different types of research
 - h. To have the competency to use the research facilities of libraries and the computer research methodologies available through the Institute
3. Erotology competencies and skills:
- a. To have the competency to understand the various media of erotic expression and the uniqueness associated with each, such as painting, photography, literature, film, video, and computer. This includes having the skills to be able to use 35mm, 16mm, 8mm, film and video in whatever format it comes, and several new digital formats.
 - b. To have the competency to distinguish among sexual artifacts of different countries, including all erotological forms of expression
 - c. To have the competency to be able to identify erotic film expressions from the early 1900's to the present
 - d. To have the competency to distinguish among erotological expressions of the 1930's, including the erotic comic books, the 8-pagers, the playing cards, and the 38 types of magazines
 - e. To have the competency to be able to recognize the uniqueness of the makers of the sexual artifacts and the persons involved in these productions
 - f. To have the competency to use standardized evaluation and coding systems developed by the Institute, the Kinsey Institute, and the Library of Congress
 - g. To have the competency to discuss erotic works of art of recognized artists such as Rembrandt, Rubens, Picasso, Dali and others
 - h. To have the competency to differentiate among the sexual formulas expressed in video works of different countries such as Spain, Denmark, Germany, Argentina and Japan
 - i. To have the competency to discuss the history of the erotic film industry since the turn of the century
 - j. To have the competency to know the erotic expressions in the theater forms such as ballet, opera, plays, and the contemporary musical theater
 - k. To have the skill to do video editing
 - l. To have the skill to use various projection equipment and recording equipment
 - m. To have competencies to design and script multi-media programs for specific groups
 - n. To have the competency to use all types of media for educational and therapeutic purposes
 - o. To have the competency to understand your own personal sexual erotic orientation, and how to use that understanding in a design of erotological programming
 - p. To have the competency to critically evaluate the literary works of erotology in American culture in contrast to other cultures
 - q. To have the competency to understand and evaluate works expressive of homosexual, transsexual, transvestite, lesbian and other sexual minority groups
 - r. To have the competency to preserve, protect, and provide materials of our erotic heritage
4. STIs skills and competencies:
- a. To have the competency to understand the history of how sexually transmitted infections have been viewed in the western world.
 - b. To have the skills to identify the manifestation, causes, cures, and the preventions of all sexually transmitted infections currently in the world
 - c. To have the skills to understand the effect of STIs on sexual lifestyles
 - d. To have the competency to understand how AIDS is dealt with throughout the world
 - e. To have the competency to understand the range of treatment and prevention modalities currently available, such as chemical barrier protection and other chemo-prophylactics
5. Anatomy and Physiology skills and competencies:
- a. To have the competency to deal with gender differentiation
 - b. To have the competency to be able to interpret both the uniqueness and the similarities of male and female sexual anatomy
 - c. To have the competency to explain to different audiences the role of the sympathetic and parasympathetic nervous systems in the sexual response cycle
 - d. To have the competency to use the various sexual response measuring instruments
 - e. To have the competency to understand the danger of the vested interests of the other helping professions in dealing with presenting sexual problems
 - f. To have the competency to understand and interpret the many sexual cosmetic options
6. Legal skills and competencies:
- a. The competency to be able to sort out and interpret the various legal responsibilities of a sexologist
 - b. To have the competency to do evaluations using court-directed guidelines
 - c. The competency to be an expert witness in all types of court situations requiring sexological and erotological expertise
 - d. The competency to work with other health professionals so that sexological and erotological expertise can be made usable in all matters of sex and the law
- SPECIAL CONSIDERATION**
- If persons wish to further the spiritual movement of the Exodus Church and Ecumenical Center Trust, a number of special categories of appointment are provided to help protect and guide those persons choosing to expand the mission in special ways. Special

categories will include missionary appointments; deacon ordination to allow for marriage, religious blessings,

burial of the dead and other cross-cultural and cross-religious sacerdotal functions that the Institute services in

many countries with many different religions and ethnic considerations.

EXODUS CHURCH & ECUMENICAL CENTER TRUST SOCIAL PRINCIPLES

CATEGORY I - THE NATURAL WORLD.

ROLE: Provides for sustenance of all creation to be used with integrity.

FAITH STATEMENT: All creation is God's.

OUR RESPONSIBILITY: To value and conserve all natural resources.

ISSUES: Water, air, soil, plants, energy utilization, animal life, space.

CATEGORY II - THE NURTURING COMMUNITY.

ROLE: Provides the potential to nurture human beings into the fullness of their humanity.

FAITH STATEMENT: All persons are important and loved by God.

OUR RESPONSIBILITY: To innovate, sponsor, and evaluate new forms of community.

ISSUES: Family, marriage, human sexuality, abortion, death.

CATEGORY III - THE SOCIAL COMMUNITY.

ROLE: Provides the means for determining the rights and responsibilities of the members toward one another.

FAITH STATEMENT: All persons are equally valuable in the sight of God.

OUR RESPONSIBILITY: To work toward societies in which social groups and individual values are recognized, maintained, and strengthened.

ISSUES: Rights of minorities, children, youth and young adults, the aging, women, men, immigrants, people with disabilities; alcohol/drugs, rural life.

CATEGORY IV - THE ECONOMIC COMMUNITY.

ROLE: Provides directions for influencing economic policies.

FAITH STATEMENT: All economic systems are under God's judgment.

OUR RESPONSIBILITY: To ensure that sound policies are developed that provide for full employment, adequate income, and so forth.

ISSUES: Property, collective bargaining, work/leisure, consumption, poverty, foreign workers, gambling.

CATEGORY V - THE POLITICAL COMMUNITY.

ROLE: Provides for the ordering of society.

FAITH STATEMENT: All political systems are under God's judgment.

OUR RESPONSIBILITY: To take active responsibility for our government.

ISSUES: Basic liberties, political responsibility, freedom of information, civil obedience and civil disobedience, crime and rehabilitation, military service.

CATEGORY VI - THE WORLD COMMUNITY.

ROLE: Provides the setting for the interaction of nations.

FAITH STATEMENT: All of God's world is one world.

OUR RESPONSIBILITY: To work to develop the moral and spiritual capacity to achieve a stable world of love.

ISSUES: Nations and cultures, national power and responsibility, war and peace, justice and law.
